

MATHEUS AMORIM

OBJECTIVE: Data Internship

EXPERIENCE

Health Insurance Brokerage – Compare Plano de Saúde | Infrastructure Analyst | Jun 2025 – Present

I build interactive dashboards and data-process automations that support decision-making in the Management and Sales areas. I administer databases and web servers, ensuring system performance, security and availability. I plan and execute technology projects focused on data and infrastructure, and implement automated routines that reduce manual work.

Anti-Fraud BPO and Risk Management – HS Prevent | Fraud Prevention Assistant | Sep 2022 – Jun 2023

I analysed documents, verifying their authenticity through forensic document examination and specialised tools. I structured and organised spreadsheets in Microsoft Excel, applying formulas such as IF, COUNTIF and VLOOKUP to improve data control. I maintained and updated the company's research system, entering new records through HTML5 edits.

EDUCATION

Data Science and Artificial Intelligence – Pontifícia Universidade Católica de São Paulo

Start: Feb 2025 • **Expected completion:** Jul 2028

Schedule: mornings

Systems Analysis and Development – Universidade Nove de Julho – UNINOVE

Start: Feb 2023 • **Completed:** Jun 2025

Format: distance learning

SKILLS
